ASSEMBLY INSTRUCTIONS
LOKCLIP: Hose repair
(For illustrating the assembly procedure a Hose-to-LOKRING connector is used.)

1. Insert the two stainless steel clips (02) into the clip position holder (01).

2. Insert the hose into the clip position holder (01) as far as it will go.

3. Lubricate the joint (03) with a little refrigerant oil (05).

4. Push the joint (03) into the hose as far as it will go.

5. Press the stainless steel clips (02) using the hand assembly tool (06). Start with the clip positioned at the side of the hose. As an alternative to the hand assembly tool (06) LOKTOOL MZ-V you can also use the LOKTOOL LC flex (L14003352).
