PROGETTO COFINANZIATO DAL FONDO EUROPEO DI SVILUPPO REGIONALE 2014-2020

HAVE YOU EVER HEARD ABOUT A 13M BOAT EQUIPPED WITH:

- an innovative hybrid propulsion system
 - a PEM Fuel Cell
- a metal hydride hydrogen storage
- salt batteries ?

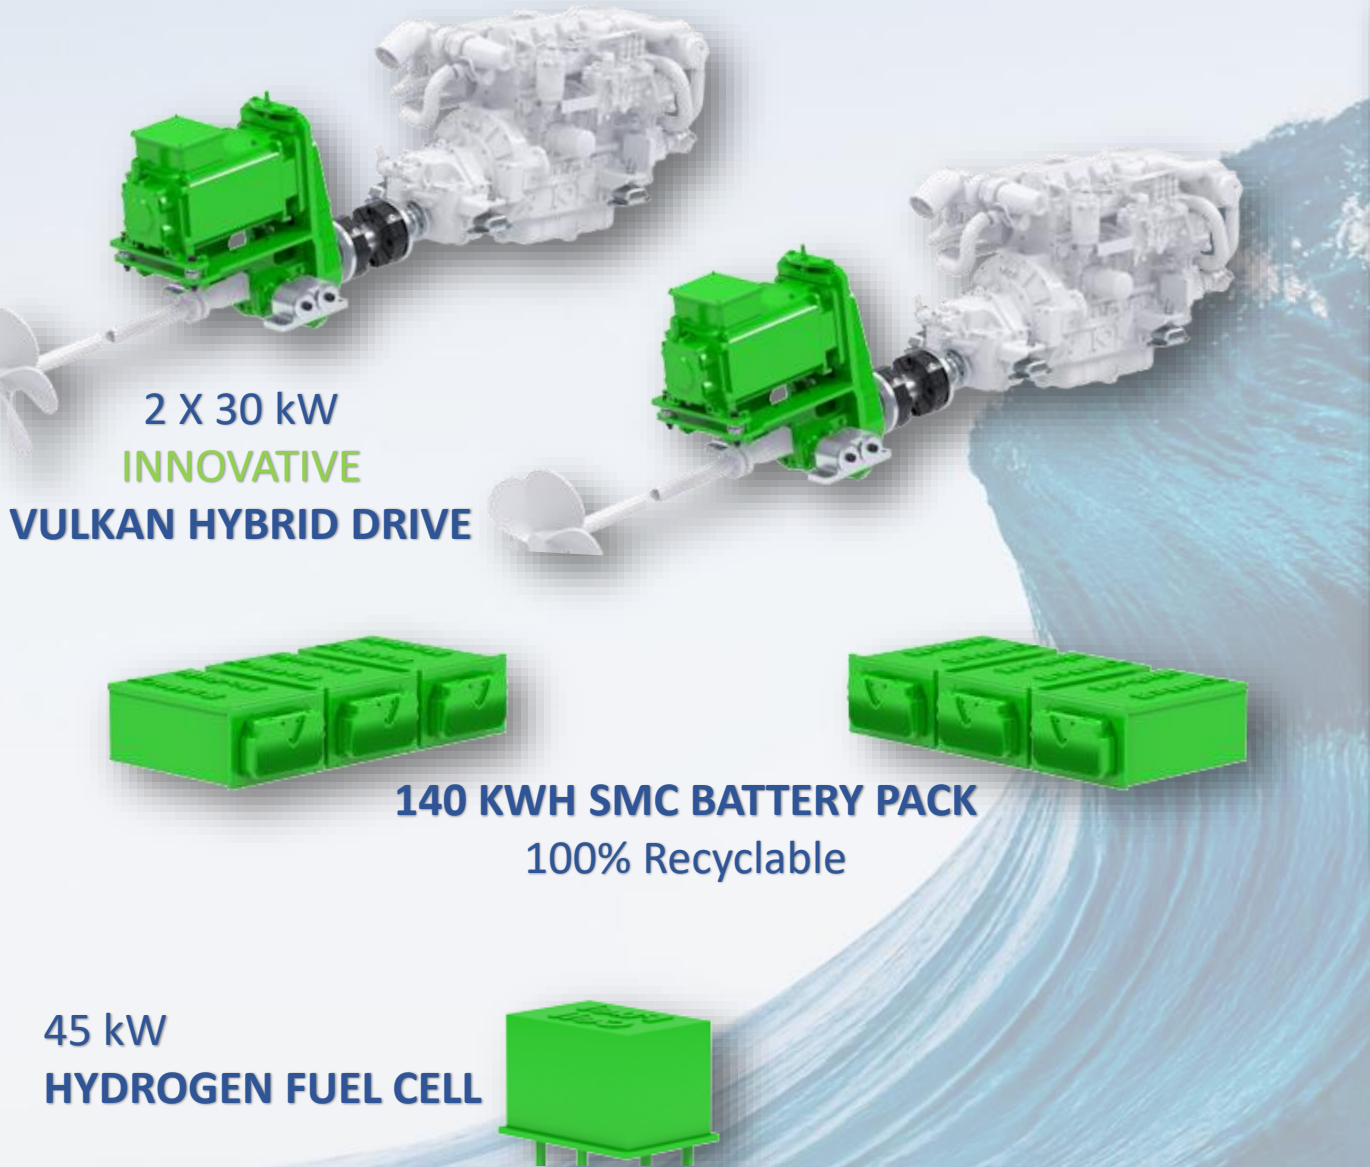

NO, OF COURSE!

The **BIIM** project is a unique prototype developed by **Vulkan Hybrid Architect** and all our Partners.

BIIM: Battello Innovativo Ibrido Modulare

INNOVATIVE PROPULSION SYSTEM FOR ZERO-EMISSIONS OPERATIONS

2 X 30 kW
INNOVATIVE
VULKAN HYBRID DRIVE

140 KWH SMC BATTERY PACK
100% Recyclable

45 kW
HYDROGEN FUEL CELL

The BIIM is a cutting-edge test platform for a plethora of innovative technologies. Vulkan Hybrid Architect developed the hybrid propulsion system and the overall electrical and electronical integration.

The **BIIM** project

Join us for a test drive
from March 2023!
